

NE-4100-ST Series

10/100 Mbps embedded serial device servers

Features and Benefits

- 10/100 Mbps Ethernet interface
- Supports a baudrate of up to 230.4 kbps
- Low power consumption at 1.5 W, with single +5 V input

Certifications

Starter Kits for NE-4100T, NE-4110S/A, NE-4120S/A

The NE-4100 network enablers come in three types: drop-in (NE-4100T), RJ45 (NE-4110S/A), and pin-header (NE-4120S/A). Moxa provides a starter kit for each NE-4100 Series module. Each starter kit contains an evaluation board that can be used to evaluate the modules and develop applications. Refer to the Ordering Information section below to see which starter kit can be used with which NE-4100 model.

Note: The NE-4100-ST Starter Kits do NOT include a module. To do testing and development, you will also need to purchase at least one NE-4100 Series embedded module. See the Ordering Information section below for a full list of the package contents.

Specifications

Hardware Requirements

Compatible Modules	NE-4100-ST: NE-4100T NE-4110-ST: NE-4110S, NE-4110A NE-4120-ST: NE-4120S, NE-4120A
--------------------	--

Warranty

Warranty Period	5 years
Details	See www.moxa.com/warranty

Package Contents

Device	1 x NE-4100-ST Series evaluation board
Cable	1 x Ethernet, crossover 1 x Null modem serial
Power Supply	1 x power adapter, universal 1 x power cord, EU type 1 x power cord, US type
Documentation	1 x document and software CD 1 x quick installation guide 1 x warranty card
