The ADLINK PXI-3920 and PXI-3910 are next-generation PXI™ embedded controllers designed for hybrid PXI-based testing systems. Equipped with Intel® Pentium® M and Celeron® M processors, PXI-3920 and PXI-3910 provide scalable computing power to your PXI™ systems. In addition, these new PXI™ controllers are also designed to be rugged and durable in all kinds of operating environments.

The hybrid PXI-based testing system is usually composed of a PXI™ platform and diversified stand-alone instruments for elaborate testing tasks. PXI-3920 and PXI-3910 provide plenty of interfaces, including GPIB, USB and COM ports, for connecting and controlling instruments. Furthermore, PXI-3920 and PXI-3910 have dual Gigabit Ethernet ports so that users can use one for LAN connection and the other for controlling next-generation LXI instruments.

PXI-3920 and PXI-3910 are cautiously designed to provide maximal robustness. The controllers have cable-free mechanical construction and are extremely durable. The CPU and memory chips are soldered on the PCB to increase reliability in shock and vibration prone environments. The aluminum-copper composite heat sink helps to disperse heat uniformly to maintain a stable operating temperature.

Combining a variety of instrument control interfaces and reliable mechanical and electronic design, the ADLINK PXI-3920 and PXI-3910 are well endowed to meet the needs of your hybrid PXI-based testing systems.

**Notice**
This PXI™ controller implements rear I/O. PXI™ controllers with rear I/O were designed to operate with a matching rear transition module which provides internal or external chassis I/O.

**Warning**
If this PXI™ controller is used with a chassis that contains a rear transition module that does not match the controller, the rear I/O functionality may not operate and may cause damage to the PXI™ controller or the rear transition module.
Datasheet

Specifications

Core Features
- Processor
  - PXI-3920: Intel® Pentium® M 760 2.0 GHz processor
  - PXI-3910: Intel® Celeron® M 373 1.0 GHz processor
  - Supports 400/533 MHz front side bus (FSB)
- Chipset
  - Intel® 915 GM Graphic Memory Control Hub
  - Intel® I/O Controller Hub 6 Mobile (ICH6-M)
- Video
  - Intel® GMA 900 graphic media accelerator
  - DVI
    - Single channel TMDS via SDVO to DVI controller
    - Supports up to 1600 x 1200 resolution
  - CRT
    - Analog CRT route to DVI-I connector on the faceplate
    - Supports up to 2048 x 1536 resolution
    - LVDS (for rear I/O only)
    - Single 18-bit LVDS channel route to rear transition module
    - Supports LCD backlight control
    - DVI-I connector for both digital and analog video signal outputs
- Memory
  - Supports dual-channel DDR2 SDRAM, 400/533 MHz
  - 512 MB on-board soldered memory
  - One DDR2 SO-DIMM socket for memory extension

I/O Connectivity
- Hard Drive
  - 80 GB SATA hard drive, 5400 RPM
- Ethernet
  - Dual Gigabit Ethernet controllers
  - Two RJ-45 connectors with speed/link/active LED on the faceplate
- USB
  - Four USB 2.0 ports on the faceplate
- GPIB
  - On-board IEEE488 GPIB controller
  - Micro-D 25-pin connector on the faceplate (GPIB cable not included)
- Serial Port
  - Two 16C550 UART compatible COM ports on the faceplate
  - Supports RS-232, RS-422 and RS-485, configurable by jumper setting
- Audio
  - Supports high definition audio input/output
  - Two audio jacks on the faceplate for line-in and speaker-out
- Trigger I/O
  - SMB connector on the faceplate to route an external trigger signal to/from PXI™ trigger bus
  - CompactFlash® socket
  - Type II CF Socket, supporting PIO and DMA modes

Physical
- Dimension: 3-slot 3U PXI™ module
- Slot requirements: 1 system slot and 2 controller expansion slots
- Weight: 0.9 kg

Environment
- Operating temperature: 0 to 55˚C
- Storage temperature: -20 to 80˚C
- Relative humidity: 5 to 95%, non-condensing

Cable Accessory
- ACL-IEEE488-MD1
  - Connectors: Micro-D 25 pins to IEEE488 24 pins
  - Length: 1 M

Ordering Information
- PXI-3920
  - 3U PXI™ Pentium® M 760 2.0 GHz system controller with DVI-I/GbE/GPIB
- PXI-3910
  - 3U PXI™ Celeron® M 373 1.0 GHz system controller with DVI-I/GbE/GPIB
- ACL-IEEE488-MD1
  - 25-pin micro-D to GPIB cable, 1 meter length
